List A* - Funds that have met the stricter criteria:
i) The revised benchmark set at the top 25 percentile of funds in their global peer group;
ii) Expense ratio (TER) that is not higher than that set by CPF Board by respective risk class. The criteria will apply to existing funds from 1 January 2008 onwards;
iii) 0% sales charge; and
iv) In addition, new funds applying for inclusion under CPFIS should preferably have a track record of good performance for at least 3 years.

* Also available for investment under CPF Investment Scheme – Special Account (CPFIS-SA)
X: No new CPF monies / Fund(s) closed to new subscriptions.

- Notes:
- The vertical axis denotes 'equity risk' levels and the horizontal axis denotes 'focus risk' levels.
 - The four broad equity risk categories (vertical axis) broadly correspond to risk levels of Equity Funds (Higher Risk category), Balanced Funds (Medium to High Risk category), Bond Funds (Low to Medium Risk category) and Cash Funds (Lower Risk category).
 - The focus risk categories (horizontal axis) are divided into two broad categories - 'Broadly Diversified' and 'Narrowly Focused'. The 'Narrowly Focused' category is further sub-divided into 'Regional', 'Sector' and 'Country'.
 - In general, risk levels increase as you move up the vertical axis and from left to right on the horizontal axis. Funds in the 'Broadly Diversified' category generally have less risk than those in the 'Narrowly Focused' category.
 - Investments in funds in the 'Narrowly Focused' category may be more risky than those in 'Broadly Diversified' category, without a corresponding increase in expected returns.
- Delisting of Fund
- For delisted funds, they will no longer be tracked under the CPFIS Risk Classification System and may no longer comply with the CPF Investment Guidelines (CPFIG)
